

I N
E X

INEX is a full-scale developer covering construction, architecture, design, engineering and planning for high-end residential and commercial projects.

We take a product-focused approach, shaping each project from the initial concept to final delivery.

The company handles maintenance and facility management, taking care of operations and resolving any issues during a one-year warranty period at no extra cost.

KONIA CROWN
PAPHOS

WELCOME TO KONIA

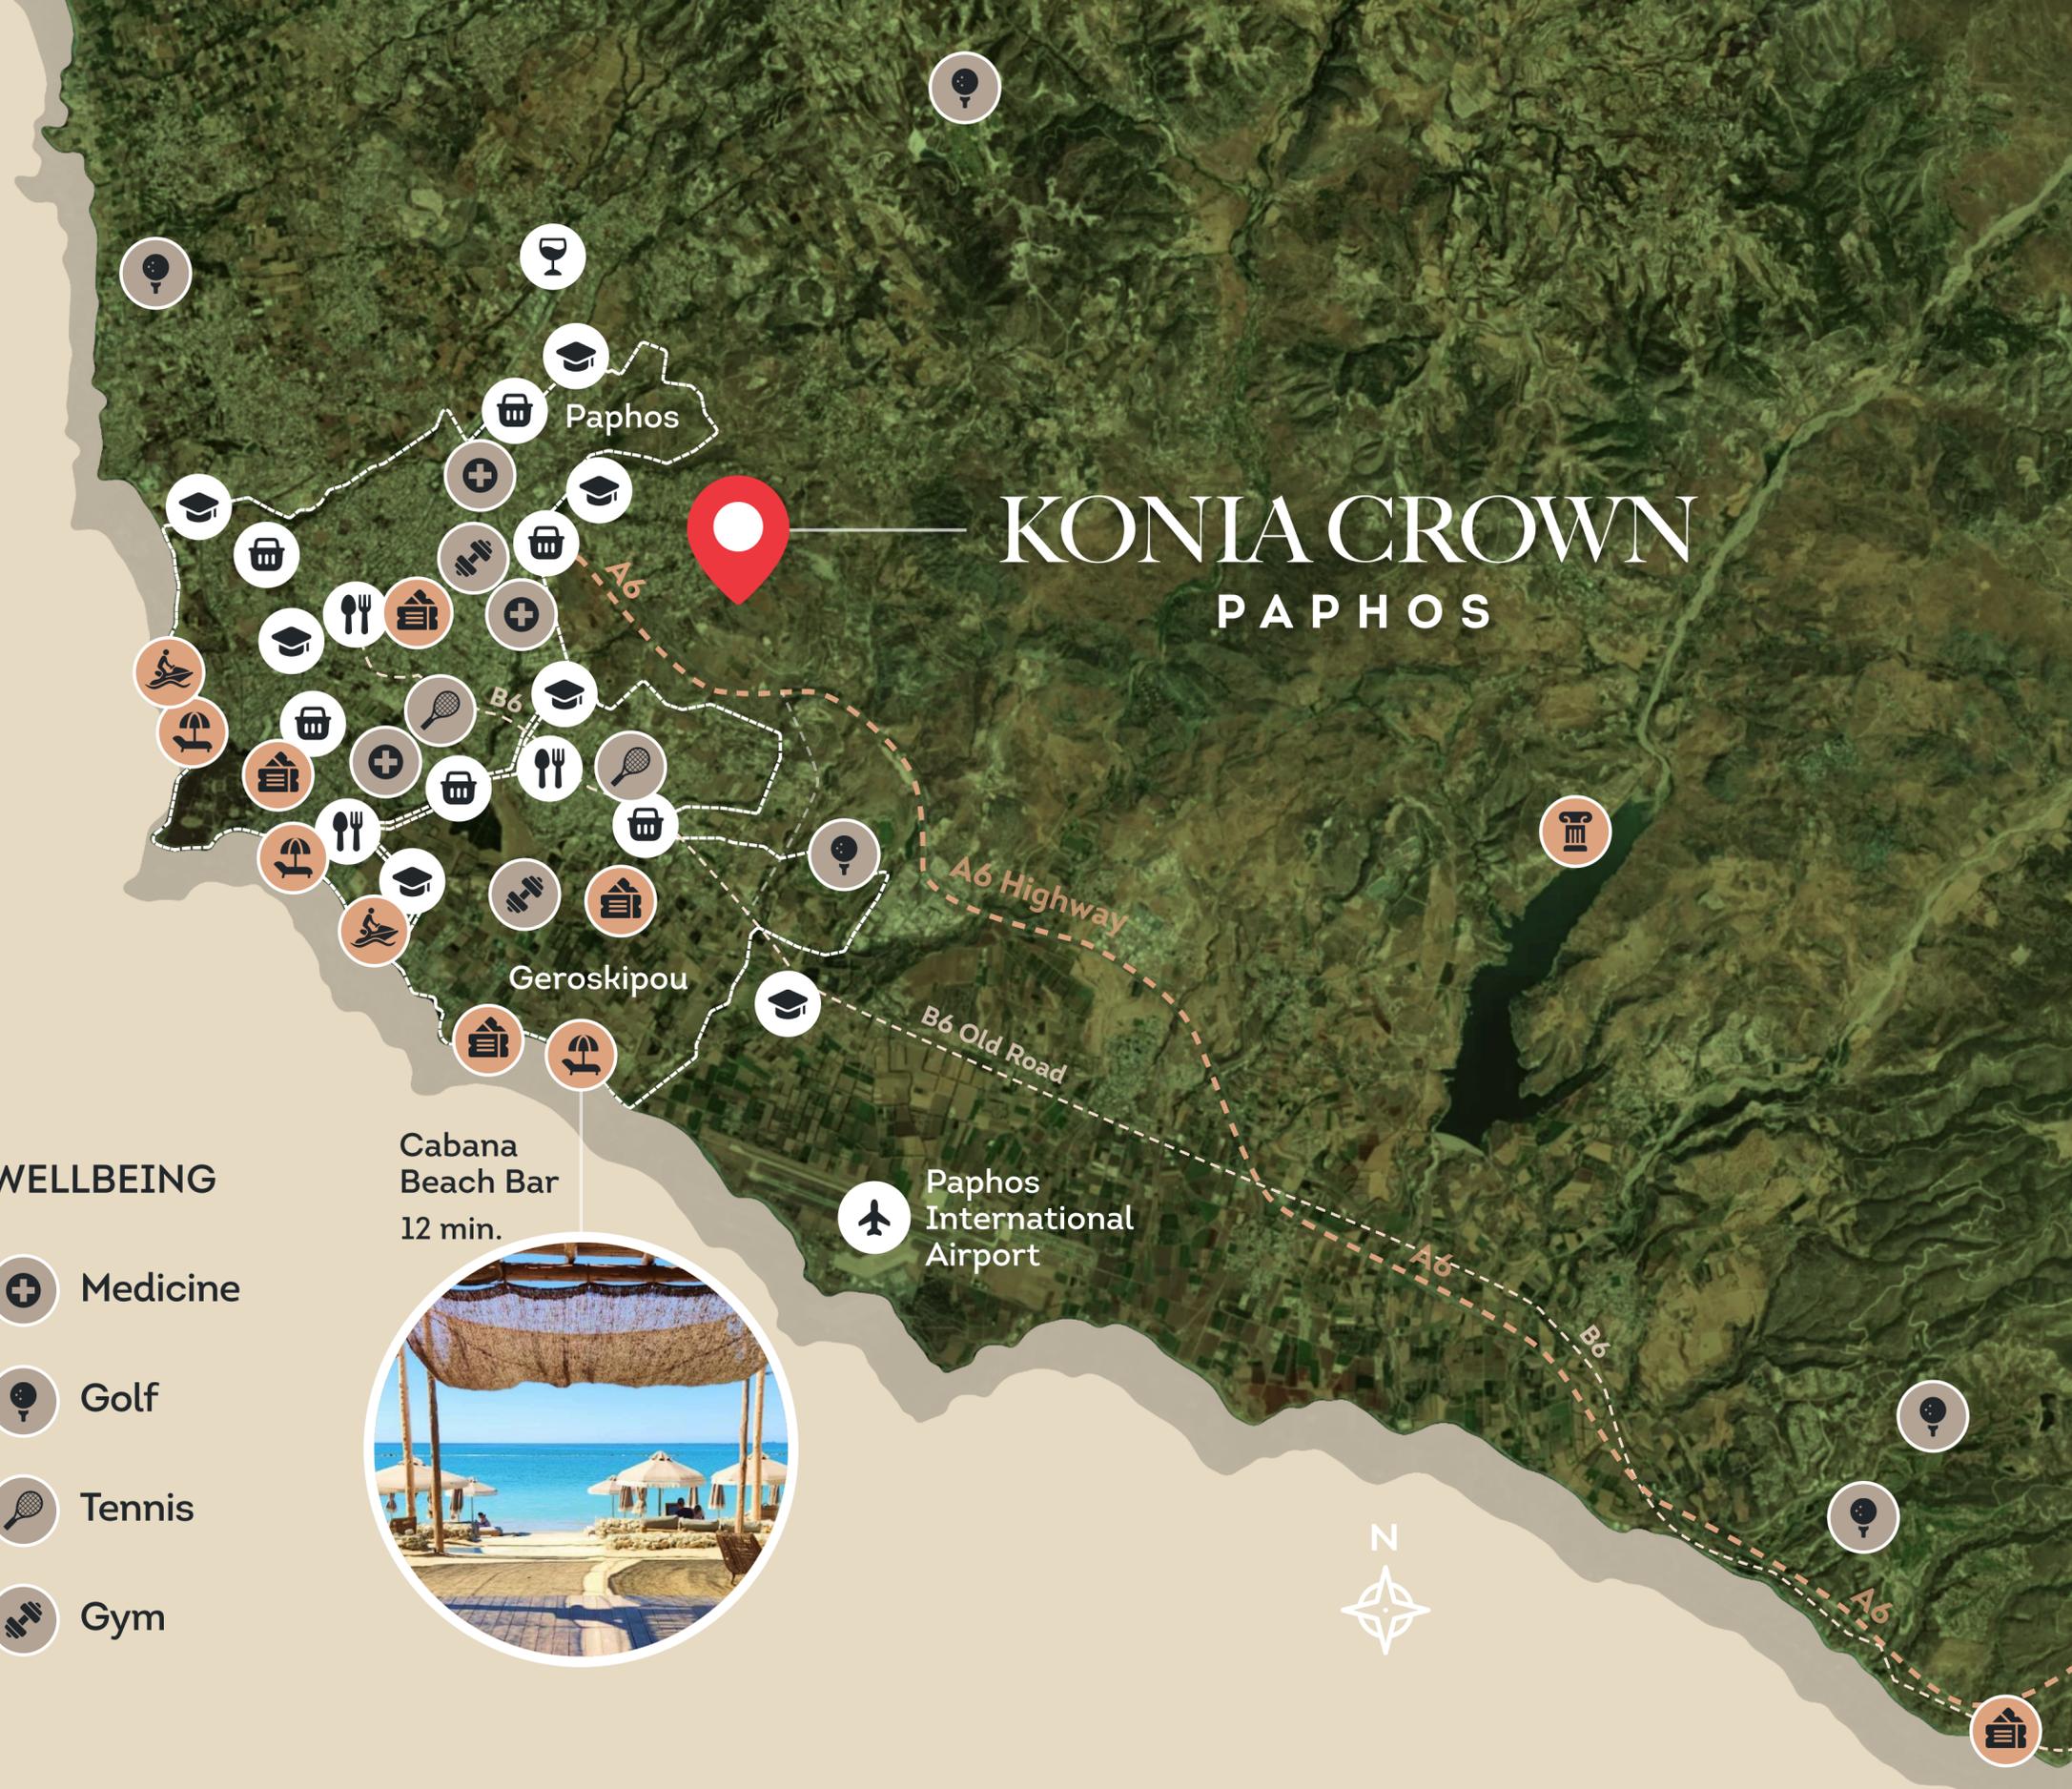

Konia is a well-known residential part of Paphos, located in the east of the city and set on higher ground at around 190 metres above sea level.

Konia is the kind of place people choose when they want a real home in Paphos, not just a point on the map. It feels quieter, greener and more residential, with the charm of a village and the comfort of having the city close by.

Schools, shops, the motorway and everyday essentials are all within easy reach, which makes daily life here simple and comfortable. It is a place where life feels more personal and connected to what really matters.

KONIA CROWN

PAPHOS

At the top of Konia, INEX is creating **Konia Crown** - a new residential neighbourhood planned as a mix of villas and apartment buildings, all shaped by one clear architectural vision.

The masterplan includes different home types, from cozy 3-bedroom villas to larger 4-, 5- and 6-bedroom houses, together with apartment blocks designed as part of the same community.

The project is also designed around how people actually want to live and planned as a private gated community, shared spaces are expected to include amenities such as a pool, gym, club house, children's area and flexible common spaces for supporting everyday needs.

100+ Units

73 000 m² Land plot area

Under construction

Masterplan Design DNA

Key Principles

1. LANDSCAPE-LED LIVING

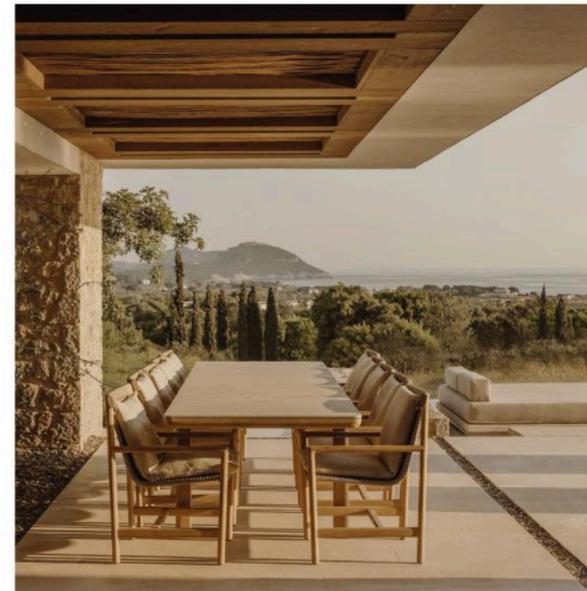

Streets and houses respond to the slope; architecture integrates subtly into the landscape.

2. COMMUNITY & CONNECTIVITY

Encourage a sense of belonging for permanent relocators.

3. AFFORDABLE PREMIUM QUALITY

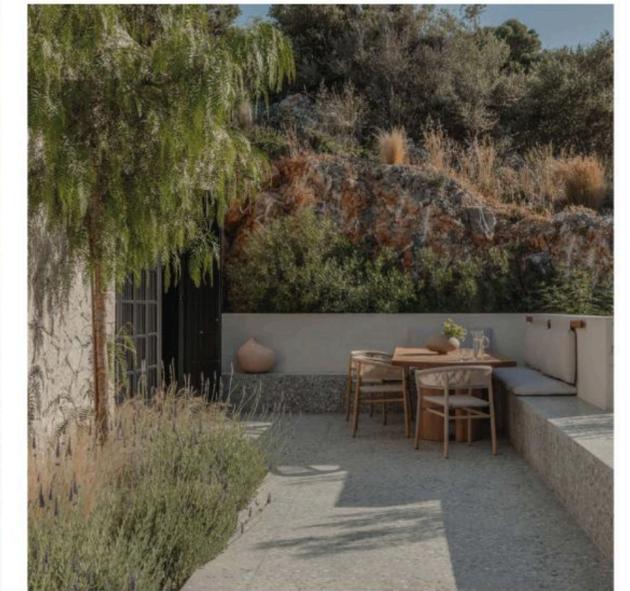

Thoughtful balance between views, amenities, and density.

4. FLEXIBLE & DIVERSE TYPOLOGIES

Variety in unit types, sizes, and orientations. Offer housing units for extended families or buyers wanting a room for parents.

5. CYPRIOT CHARACTER & SENSE OF PLACE

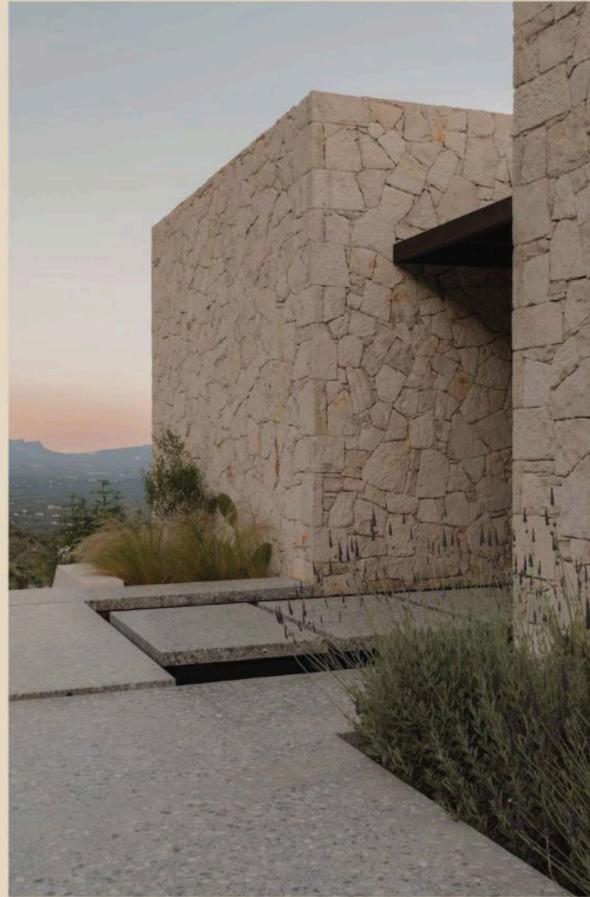

Outdoor spaces, patios, and natural pools to celebrate Mediterranean living.

Masterplan Design DNA

Architectural Design Pillars

Soft and Naturalistic Forms

Materials Inspired by the Place

Touching the Ground Lightly, Suspended above the Land

Distinguished by Color and Pattern

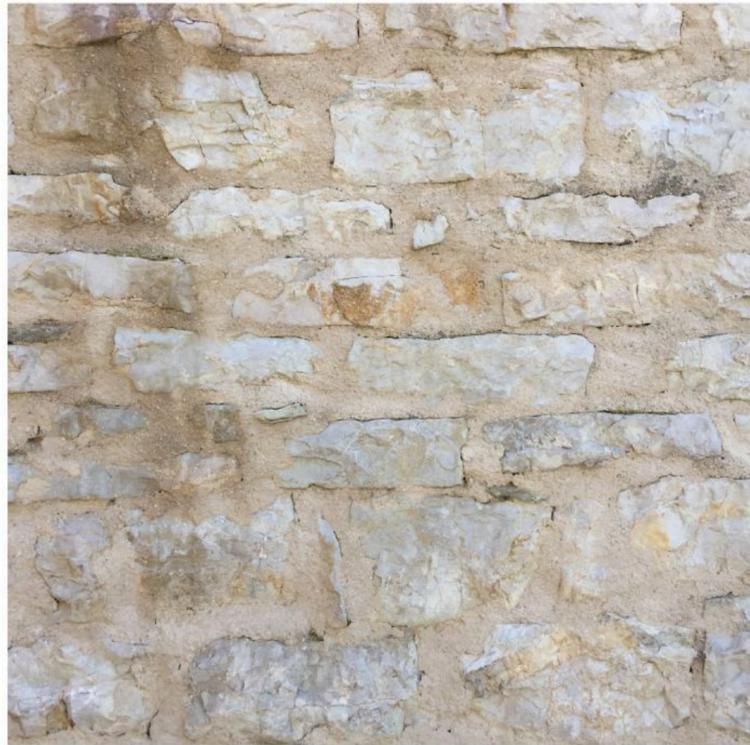

Inspired By Local Vernacular Architecture

Primary House

Material Approach

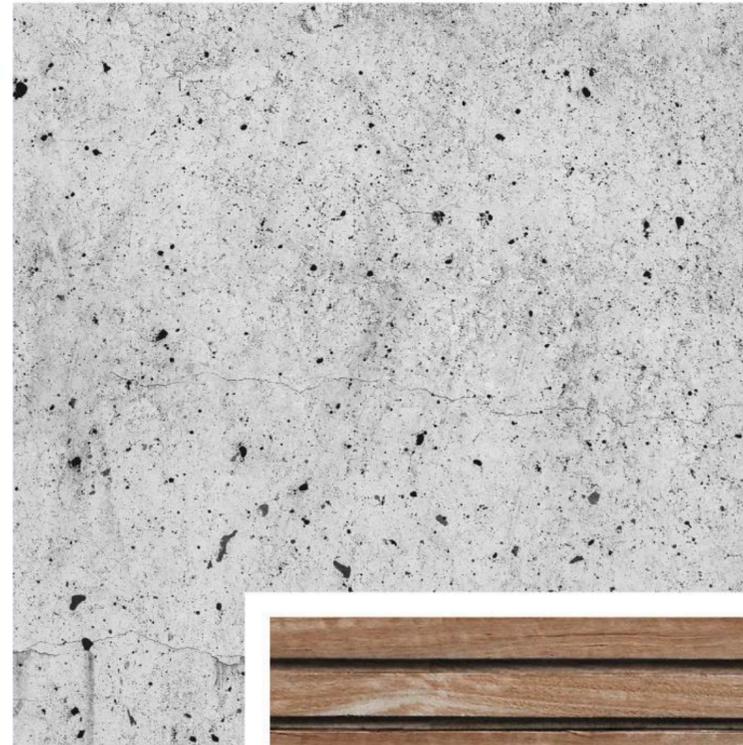

Warm Local Stone

Mineral Lime Plaster

Stone Pavement

Integrated Planting

The material palette is rooted in the geology and light of Cyprus: mineral, tactile, sun-responsive, durable and low-maintenance.

Timber

The Creek Garden

Visual

The Club Terrace

Place Vision

01

HOSPITALITY LAYER WITHOUT DENSITY

This delivers the “resort” experience while maintaining private ownership.

02

COMMUNITY = SECURITY PREMIUM

A socially active shared community space is perceived as safer and more desirable.

03

INTERGENERATIONAL APPEAL

Parents, children, grandparents. The shared pool creates cross-generational use. This broadens the buyer market.

The Club Terrace

The Club Terrace

Visual

The Active Quarter

Place Vision

01

SHIFT TO HYBRID LIVING

Work-from-home is permanent. Co-working within walking distance increases daily utility and future resale appeal.

02

WELLNESS AS A CORE ASSET

Gym + padel reflect contemporary Mediterranean lifestyle: social, active, outdoors.

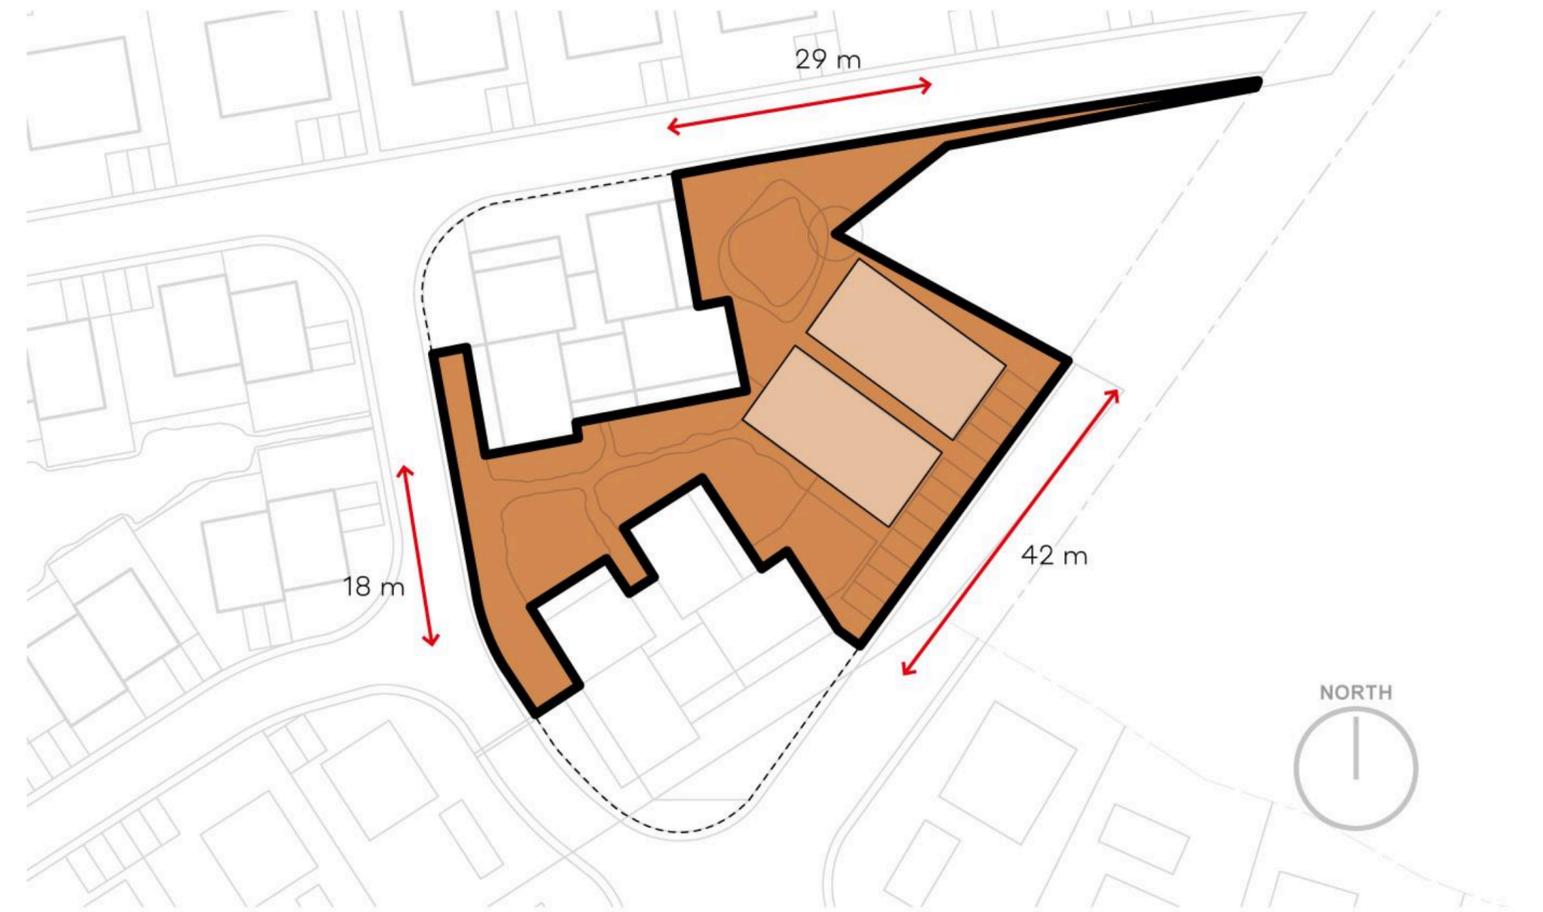

03

DEMOGRAPHIC FLEXIBILITY

Appeals to: young professionals, families, second-home buyers, retirees seeking active ageing.
